

24th Annual  
**TLOMA**  
Conference

October 24-27, 2012

Deerhurst Resort  
Huntsville, Ontario

## ***What are some of the benefits of attending the TLOMA Conference?***

This year's Conference offers 12 educational and practical workshops over a 3 day period for all areas of management in the legal profession. These workshops are delivered to you by legal industry experts, consultants and colleagues who provide current and relevant information on challenges and solutions which impact law firms today.

- **Learn** from others in your profession and perhaps in your particular area of expertise. What works? What doesn't work? This is practical professional development in action.
- **Share** with others your thoughts and experiences. Conferences are not just for taking, they are also excellent opportunities for sharing.
- **Take a break** from the daily routine and tasks which can be refreshing and re-energizing. It is truly amazing how much a couple of days focused on your profession, yet removed from the daily grind and countless interruptions of the job can encourage and invigorate your calling to the profession.
- **Step back and reflect** on your job and the bigger picture of your profession. Can't see the forest for the trees? The TLOMA Conferences allow you to pull away from the daily pressures and be more philosophical about your job, your profession.
